

[Your Full Name]

INFLUENCER MARKETING MANAGER

Warsaw, Poland • [email] • [phone] • LinkedIn: [url] • GitHub: github.com/Pukakiii

PROFILE

Warsaw-based marketing specialist focused on influencer marketing, with hands-on advertising experience and certification from indaHash in campaign strategy, creator collaboration, and brand-influencer partnerships. Native Ukrainian and Russian speaker with Polish at C1 (State Certificate) — well positioned to source local creators and build influencer marketing into a reliable lead-generation channel for the Polish market. Comfortable owning campaigns end to end: recruiting and onboarding creators, launching integrations across Instagram, TikTok and YouTube, writing clear briefs, and analysing performance against core metrics such as CPL, CAC, ROI and ROMI.

EXPERIENCE

Marketing & Advertising — DreamPyre

[City] | [Month Year – Month Year] | ~2 years (alongside vocational studies)

- Ran and supported marketing & advertising campaigns for [describe the business / product / audience], across [social, content, paid, creator channels — specify].
- [Worked with creators/bloggers / produced campaign content / managed social channels — describe what you actually did].
- Tracked campaign performance in Google Sheets and [analytics tools you used], reporting on [reach, engagement, leads, conversions].
- Wrote creative briefs and campaign specs and coordinated with [design / SMM / external partners].
- [Add one concrete result — e.g. grew engagement by X%, generated Y leads, ran Z campaigns].

KEY SKILLS

Influencer Marketing: creator sourcing & onboarding, partnership management, UGC programmes, ad integrations (Instagram, TikTok, YouTube), creative briefs & campaign specs

Performance & Analytics: campaign performance tracking, CPL · CAC · ROI · ROMI · lead volume, Google Sheets, analytics & reporting

Content & Design: content concepts, copywriting, Figma, Adobe Photoshop, Adobe Illustrator, UX/UI

Ways of working: proactive & accountable, cross-functional collaboration, clear partner communication, data-driven decisions

TECHNICAL EDGE

Beyond marketing, I build web applications and AI tools (lead developer on **JobAgent**) — so I can create my own campaign dashboards, automate reporting, and work with data far beyond a typical marketing toolkit. A real advantage for tracking performance and scaling a UGC programme efficiently.

EDUCATION

BSc Computer Science — [University name], Warsaw (starting 2026)

Technikum — Marketing & Advertising (3-year vocational programme, graduated [year])
